

All-in-One Solution for Modern Resorts

Streamline every aspect of your resort—from check-ins to financial reports, restaurant sales to event bookings. Built specifically for Africa's hospitality industry with tax compliance, data sovereignty, and scalable architecture.

Complete Integration

One platform connects every department—no more disconnected systems or manual data entry.

Built for Africa

Multi-currency, M-Pesa integration, offline modes for remote lodges.

Tax Compliance Connectors

Built with connectors for eTIMS and similar tax systems. Auto-generate compliant invoices in real-time.

Data Sovereignty

Your data stays on your servers. Full ownership, enhanced security, complete control.
